

Prevent & End Homelessness in NYC

The Challenge

For the 350,000 New Yorkers without homes, navigating the city's disjointed network of social service providers and government agencies is a trauma compounded by unreliable, opaque, or outdated information. [1]

Our Mission & Vision

Streetlives leverages the ubiquity of low-cost digital smartphones and public WiFi to streamline access to peer-validated supportive services. Since 2015, we have provided free, accessible, privacy-protected digital solutions, to reliably connect unhoused or unstably housed people to social services that meet their needs.

Our vision is a system where every person struggling with homelessness has the agency to make informed and confident decisions about which resources best meet their needs.

Funding from the 2022 New York City government initiative Opportunity Starts with a Home led to the pilot and rollout of our peer-powered multilingual online platform, YourPeer. Unlike other platforms, YourPeer is:

Community co-designed

Every product, program, and process is informed by the real-world insights of unhoused people

Delivered by lived experts

We hire from the community, blending lived and professional expertise to deliver authentic solutions.

Our Impact

Since its August 2023 launch, 11,500+ individuals have benefited. YourPeer's metrics collectively indicate a growing, engaging, and increasingly visible website that is effectively reaching and retaining its audience.

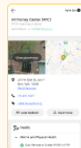

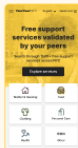

The most relevant community resource

1,200+ locations & **2,400+** peer-validated social service providers and community programs gaining 1m 37% and 77% engagement coupled to user growth show the relevance to users

Driving system change

Government programs and nonprofit technology sector providers are looking to emulate Streetlives' lived-expert staffing model, citing YourPeer's successful implementation

YOUR SUPPORT HELPS US:

- ✓ Improve our feedback system for better client experiences
- ✓ Hire peer advisors with firsthand experience to assist clients
- ✓ Provide specialized resources in the YourPeer App
