

Purposes:

1. Use simplified Keystroke-Level Model (KLM) to evaluate the quality of click path on Minimal Viable Product (MVP)
2. Use simplified Keystroke-Level Model (KLM) to evaluate the quality of click path on final iteration

BETTER WEB DESIGN LEADS TO BETTER SALES

USING KEYSTROKE-LEVEL MODELING TO IMPROVE HUMAN-COMPUTER INTERACTION

Click Path: Services → Artist Services → Mix & Master (1 Song) → Add to Cart → Checkout → Billing

M = Mentally preparing to execute action
S = Scrolling

P = Pointing to target w/ mouse
K = Keystroke or mouse click

↑ = Time increased
↓ = Time decreased
- = Time unchanged

[Averaged time in seconds]

WE ASKED ABOUT HALF OF THE PARTICIPANTS WHAT THEY WERE THINKING AS THEY JOURNEYED AND DID NOT TIME THEM. DURING THE MVP JOURNEY, RESPONSES WERE MOSTLY CASUAL SUCH AS, "I'M JUST READING AND TAKING IT IN."

HOWEVER, DURING THE FINAL VERSION OF THE WEBSITE, PARTICIPANTS WERE MORE THOUGHTFUL.

"I WAS JUST THINKING I LIKE THE COLORS."

Summary

Click Path: Services → Artist Services → Mix & Master (1 Song) → Add to Cart → Checkout → Billing

THE INCREASE IN M TIME ON THE FINAL ITERATION LED TO MORE SCREEN TIME. EYE MOVEMENT WAS SLOWER ON THE FINAL VERSION OF THE MIDTOWN WEBSITE BUT WAS ONLY MEASURED ON A FEW PARTICIPANTS. PERHAPS THE COOLER COLORS (BLUE AND BLACK) SLOWED DOWN PARTICIPANTS' THOUGHTS FROM THE WARMER COLORS (RED, YELLOW, AND PINK) AND RESULTED IN MORE SALES. IF USERS ENJOY THEIR EXPERIENCE MORE, THEY ARE MORE LIKELY TO MAKE A PURCHASE.

Takeaway

Month-Over-Month Sales

WE MAINTAINED THE SAME MARKETING STRATEGY TO ENSURE THAT NO INCREASES TO SALES COULD BE ATTRIBUTED TO INCREASED TRAFFIC. TIME SPENT ON THE WEBSITE DID INCREASE BY ABOUT 172 PERCENT WHICH LOOSELY COINCIDES WITH THE INCREASED TIME SPENT IN THE MENTAL STATE OF THE KLM.

Thank you for stopping by to check out some of my work!
Please feel free to contact me with your inquiries.

THANK YOU!
